INVESTOR OVERVIEW · NOVEMBER 2026

Getting African creators paid fast.

Paysta turns US-dollar income from streaming royalties and PayPal into money in a South African bank account or e-wallet. It runs on the web and on WhatsApp.

paysta.co.za **app.paysta.co.za** · royalties **payments.paysta.co.za** · PayPal payouts Download PowerPoint

THE PROBLEM

Creators earn in dollars, but they live in rand.

Payments take 4–7 days

Withdrawals from distributors and PayPal take four to seven days to reach a local account. Creators who need the money now have to wait, or turn to costly informal options.

Royalties stuck abroad

Independent artists are paid by TuneCore, Ditto and CD Baby in US dollars. Withdrawals need foreign accounts, Payoneer or PayPal, and each hop adds days and fees.

PayPal is hard to cash out

Freelancers and creators get paid in PayPal dollars, but turning that balance into rand in their own bank account or e-wallet is slow and confusing.

Disconnected payment systems

Mobile money and local banks aren't linked to global payment platforms like PayPal, TuneCore and Payoneer. Money can't flow straight from where creators earn to where they spend, so every payout needs workarounds.

THE SOLUTION

Two products, one payout engine.

Paysta pays creators first, in rand, to their bank or mobile money. We then take on the 4–7 day wait and the complicated processing ourselves, across distributors, PayPal and local banks.

app.paysta.co.za

Paysta Royalties

Artists see their balance and request an **instant** payout, so there's no 4–7 day wait. They can also choose a **standard** payout (7–10 days) or an **advance** against future royalties. Paysta withdraws from the distributor and pays rand to their bank or mobile money, with a PDF invoice for every payout.

payments.paysta.co.za WhatsApp

Paysta Daily: PayPal payouts

Customers get an instant rand quote, pay through PayPal Checkout and receive rand in their FNB, Capitec or other bank account, or an e-wallet. The whole flow also runs inside WhatsApp, with an AI assistant and saved payout details.

TRACTION AT A GLANCE

Real money has moved through Paysta for years.

Converted at R16.42/$ · excludes Jan–Feb PayPal and Apr–Oct Ditto, not yet in the data

Combined transaction value per year (ZAR)

PayPal (Paysta Daily) data starts in 2025; 2023–2024 show royalties only

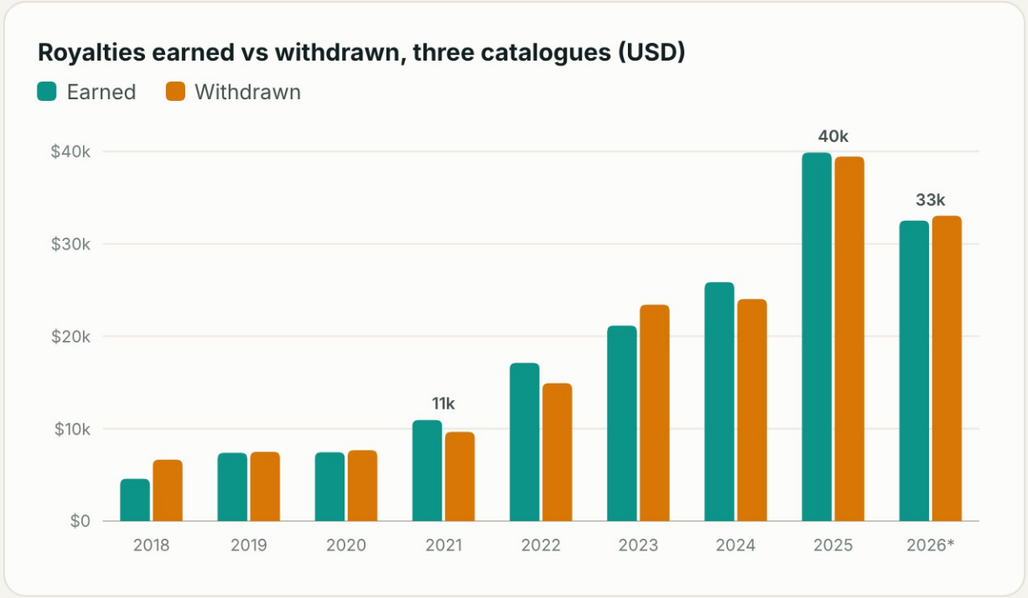

ROYALTIES

Artist earnings grew 3.6× in four years.

Royalties across the three catalogues Paysta manages rose from **$10.9k in 2021** to **$39.9k in 2025**. 2026 is already at **$32.5k** by 1 November. Almost all of it is withdrawn, and Paysta earns a fee on each payout it handles.

Top sources of streaming income: Apple/iTunes 41%, YouTube 26%, Spotify 26%.

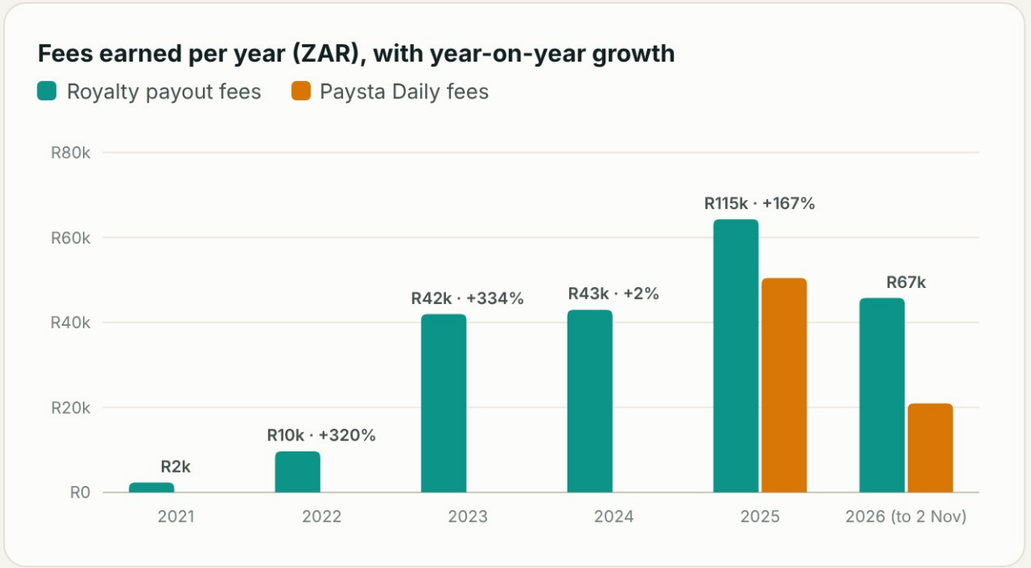

REVENUE

Fees up 167% year on year in 2025.

Paysta earns about 8% on each royalty payout and each Paysta Daily PayPal payout. Fees reached about **R115k in 2025** and R67k so far in 2026.

Year-on-year fee growth: **+320%** (2022), **+334%** (2023), **+2%** (2024), **+167%** (2025).

2025 is the first year with Paysta Daily (PayPal) data, so its growth includes that product; royalty fees alone grew 50%. 2021–2022 fees are as recorded in Paysta's ledger (fees rose from 5% to 8% over that time). From 2023, fees are estimated at 8% of value processed, in line with the 8.0% recorded in 2023–2024. Value processed is converted at each year's average rate.

PAYSTA DAILY: PAYPAL PAYOUTS

Loyal customers who come back.

94%

of payments came from customers who paid more than once (30 of 49 customers)

$100

median payment; average $162

11 of 28

2026 customers had already used Paysta in 2025

PayPal payments received per month (USD)

Customer payments only; transfers between Paysta's own accounts excluded

January and February 2026 aren't in the PayPal exports provided, so they're left blank. May 2025 includes one customer's $11,000 in seven payments.

PRODUCT

Built to run at scale, without a call centre.

WhatsApp-native

- Quote, cash out and pay by chat, with tap buttons
- Saved payout details for returning customers
- Automatic payment reminders

AI assistant

- Understands messages like "how much for 250 on Capitec?"
- Every amount comes from the pricing engine; it never quotes its own figures
- Hands over to a person when it's unsure

Operations

- Staff dashboards and audit trails
- Automatic PayPal reconciliation
- Invoices, and alerts by email and WhatsApp

Royalty tools

- TuneCore, CD Baby and Ditto accounts in one place
- Advances against future royalties
- Custom fees and refunds on rejected payouts

Infrastructure

- Cloudflare edge hosting and a Postgres database
- Infrastructure as code (Terraform), deployed from GitHub
- No stored cloud keys

Live since October 2026

- Both web apps are in production
- The first payouts through PayPal Checkout and WhatsApp are complete

BUSINESS MODEL

We earn on every dollar that moves.

Royalty payout fees

A fee on each withdrawal, with higher fees for instant payouts and advances. The historical take rate is **7.8%**.

FX spread on PayPal payouts

The customer sees one rand amount, and Paysta keeps the margin between the live dollar rate and that quote: about 8% per transaction.

Advances

Royalty advances are paid ahead of distributor payouts and recovered from future royalties, priced as a premium payout.

WHAT'S NEXT

From payouts to a creator wallet.

Each step makes payouts faster and brings in more creators per rand spent.

1. **Instant rand settlement:** automate bank payouts the moment PayPal confirms, using PayShap.
2. **More distributors:** direct balance sync from TuneCore, Ditto and CD Baby, so artists see what they can withdraw today.
3. **Data-driven advances:** size advances from each artist's earnings history across Apple, Spotify and YouTube.
4. **Grow on WhatsApp:** referrals, agents and other languages, all handled by the AI assistant.
5. **Regional expansion:** Zimbabwe and other SADC payout corridors.

TEAM & ASK

Built by an engineer who has run this business since 2021.

Tinashe Jambo, founder

Data engineer (AWS, Snowflake). MSc Mechanical Engineering, University of Cape Town. Co-founder and COO of Texcite. Has run Paysta's royalty payouts since 2021 and built its platform end to end.

The ask

We're raising **R5 million** (about **US$300,000**) to automate rand settlement, add distributor integrations and grow Paysta Daily on WhatsApp.

Contact: payments@paysta.co.za

Figures come from Paysta's transaction ledger, TuneCore statements for three managed catalogues, PayPal activity exports and Paysta's production database. USD and ZAR amounts are as recorded and not converted.
